

-- 35. An informational article on which variable information is inserted, said article comprising:

a substrate having a zone for inserting said variable information; and  
a refractive image within said zone, said refractive image being sized and arranged such that at least a portion of said variable information is adapted to be inserted over said refractive image.

36. The informational article of Claim 35, wherein said refractive image is a hologram.

37. The informational article of Claim 35, wherein said informational article is a temporary vehicle registration.

38. The informational article of Claim 35, wherein said informational article is a handicap parking placard.

39. The informational article of Claim 35, including a covering secured to at least a portion of said zone.

40. The informational article of Claim 39, wherein said covering is an adhesive tape.

41. The informational article of Claim 40, wherein said adhesive tape includes a write-resistant surface.

42. The informational article of Claim 41, wherein said write-resistant surface includes a layer of silicone resin.

43. The informational article of Claim 42, wherein said silicone resin containing about 2-1/2 to 10 percent by weight of a wax.

44. The informational article of Claim 43, wherein said wax being a polytetrafluoroethylene.

45. The informational article of Claim 40, wherein said adhesive tape is transparent.

46. A method of protecting an informational article on which variable information is inserted, said method comprising:

providing an informational article substrate having a zone for inserting said variable information and a refractive image disposed within said zone; and

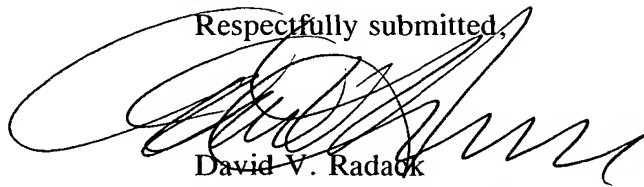

inserting said variable information in said zone so that at least a portion of said variable information is disposed over said refractive image.

- 47. The method of Claim 46, wherein said refractive image is a hologram.
- 48. The method of Claim 46, wherein said informational article is a temporary vehicle registration.
- 49. The method of Claim 45, including securing an adhesive tape to at least a portion of said zone.
- 50. The method of Claim 49, wherein said adhesive tape includes a write-resistant surface.
- 51. The method of Claim 50, wherein said write-resistant surface includes a layer of silicone resin.
- 52. The method of Claim 51, wherein said silicone resin containing about 2-1/2 to 10 percent by weight of a wax.
- 53. The method of Claim 52, wherein said wax being a polytetrafluoroethylene.
- 54. The method of Claim 49, wherein said adhesive tape is transparent. --

#### REMARKS

Please enter the above preliminary amendment.

Respectfully submitted,
